Dear Scott

I write regarding our recent move of premises from Hampton Court Palace to 1 Kings Road Walton-on-Thames.

I would just like to congratulate Central Moves on a fantastic job! As you are well aware, moving anything from the Palace is very difficult due to the nature of the historic building and awkward rooms (shapes and sizes). Any damage to the fabric of the building of course would be a major problem. However, we were very impressed with the way the move was conducted and the willingness, helpfulness and politeness of your staff. Nothing was too much trouble for them and delivery to our new offices in Walton went equally well – given that many items were extremely heavy or awkward.

Thank you so much for making what was a difficult job run as smoothly as possible.

Kind regards

Janet Jardine
